## **ELECTRICAL REPAIR GUIDE**

**The Best Electrical**  
Anywhere USA, City ST 00000

*The areas leading comfort experts for all your  
Plumbing needs*

# Price Book Set Up Instructions

Building Services Institute's **Fix-Right Price Book Program** is designed to help our client contractors outperform the competition with a "customized-to-your-business" flat rate *Fix-Right Service Repair Price Book*.

We designed the *Fix-Right Service Repair Price Book* to be used by Service Technicians on service calls.

## **Easy 1-Page Price Book Set-up:**

Your *Fix-Right Service Repair Price Book's* flat rate pricing is set up via a 1-page set-up form located at end of this demo price book. We provide you service repair price for 99.9% of all common residential HVAC repairs.

Your flat rate prices will be based on your company's unique:

## **Cost-of-Goods-Sold:**

- Actual "built-in" by Corken Steel cost-of-goods-sold for service repair parts.
- Total "built-in" installation labor hours for each repair task for a Service Technician which we multiply by your unique labor cost set up rate to find your service repair labor cost.

## **Your Service Repair Flat Rate Sell Price:**

- We will make your pricing accurate to your business and based on your unique local area labor costs, parts mark-up scales, unique overhead and net profit set-up requirements.

# Prices Shown are Illustrative Only

- This "demo" price book was designed for demonstration purposes only.
- **The pricing shown is for a fictitious contractor, and is not meant to be representative to local area pricing.**
- **You are NOT authorized to use this demo price guide for pricing work.**
- We will make your pricing accurate to your business and based on your unique local area labor costs, parts/materials costs, parts/materials local sales tax rate (if applicable), unique overhead and net profit set-up requirements.

# Questions?

Call our Price Book Hot Line at 800-240-2823 24/7 or email us at [customercare@GrowMyHVAC.com](mailto:customercare@GrowMyHVAC.com)

This repair guide  
contains 99% of all  
common electrical  
system failures.

Our Pricing 100%  
Safety & Savings:

- Diagnostic/Trip Charge Fee
- Fix-Right® Solution Repair Task Fee***
- Manufacturer's Published  
Start-up & Safety Test Tasking Fee
- A Total Discount OFF REPAIR to Become Our  
“Protect” Customer to help ***prevent*** them from  
happening again and save up to \$200 or more.

**Technician Notes: Invoice and Pricing Notes:**

If parts/materials are not in your truck stock, please make sure to add the standard .5 hour or use this section to add the round trip actual travel hours to your service ticket. Use the code above - but write on invoice the actual repair description.

If you need labor hours or repair materials greater than the available tasking items, simply use any two or more to obtain total hours or total materials needed to complete work.

The miscellaneous parts and material costs needed are listed as PM0000 series and represent vendor supplier costs in dollars.

Always round up to the next logical price code. Example: For \$46 dollars worth of parts you would select PM0050 since \$46 is greater than the midway point between \$40 and \$50. For \$42 dollars worth of parts you would select PM0040 since \$42 is lower than the midway point between \$40 and \$50.

For parts needed greater than \$400 use 5425-0000 code and multiply vendor price by 1.4 to derive sell price.

Remember, the only thing worse than misspelled words and poor handwriting is no words and no handwriting.

Always mention how to receive a 15% discount off today's repairs
